

PROF. P. H. LOWREY WEDS IN CHICAGO

BLUE MOUNTAIN, Miss., Aug. 9. (Sp.)—Perrin H. Lowrey, head of the school of English in Blue Mountain college, married here today to Miss Erin Louise Taylor, of Verona, Miss., who is studying music for the summer, and married her in Hyde Park Baptist church at high noon Thursday.

Mrs. Lowrey, who is the daughter of Mr. and Mrs. S. D. Taylor, of Verona, is one of the leading musicians of the state and is to be a member of the music faculty of Blue Mountain college at the opening of the session in September. "Ernie," as she was affectionately called by her college chums, was a favorite of both teachers and students during her three years' course in Blue Mountain college, where she finished in music in June. She was a leader of the honor roll several times, yet she always found time for fun and was president of the Epsilon Literary society for the first quarter of last year, this being the highest honor her society could pay her. She was also president of the Delta Epsilon club, one of the most select organizations of the college.

Prof. Lowrey is widely known throughout the South as one of the leading writers of verse for the magazines, having had a number of his poems published in many of the leading magazines. He is also one of the leading insurance men of this section of the state.

Mr. and Mrs. Lowrey have gone to Canada for a brief honeymoon, after which they will be at home in Blue Mountain.

POLES TREATED WITH CONTEMPT IN PRUSSIA

JOHANNISBERG, East Prussia, Aug. 9. (By the Associated Press.)—Scant sympathy is given Polish refugees who have fled across the German frontier before the advancing Bolsheviks. They are greeted with more or less contempt by the inhabitants of East Prussia as they plod along the roads to the interior, apparently fearing the Bolsheviks are close behind them.

Most of the refugees are poor women and ragged children, and while the correspondent was watching a party of them today, a German said to the correspondent: "You know they are Poles. We do not want them; nobody wants them."

On the other hand, Russians reaching here apparently meet no sympathy, being usually well dressed and educated. Most of them are sympathizers of the imperial regime who have escaped. Alleged atrocities by the Bolsheviks are charged by agitated crowds in the hotels here.

Congenial Work At Good Pay— for Young Women

The long distance telephone company will form
another class for student operators and pay
them while learning the business

It is worth the while of every young woman who means to be independent to investigate the opportunity offered in the new profession of long distance telephone operation.

Parents are urged to discuss the matter, too; many vocations are overcrowded now in normal times, but there has never been enough trained long distance operators to meet the demand.

The use of the long distance telephone is a profitable time saver that is as yet realized by only a small percentage of business men. Every month sees a larger increase in traffic. The telephone company knows that it must give the best possible service, and intends to do so, if the opportunity is to be taken advantage of.

Long distance operators receive good salaries and their working time is only 7½ hours per day. Salaries are increased as rapidly as the efficiency of the operators increases. Promotion to supervisor, chief operator, department and executive head is offered to those who show the necessary ability.

A business in its infancy always offers greater opportunities than one established.

If you are young, single, ambitious, intelligent;
if you have a good disposition and a clear
voice, you should try for one of these positions.

We must add some ten or twelve operators as soon as possible, and there being no "telephone colleges" we must train these operators in our own school. This school is a most interesting and unique institution in that the students work with real telephones, real business forms and are paid while learning. Students' salaries are greater than usually paid untrained office assistants.

If you want to be one of the class now being formed, this is what you should do: See Miss Reinhardt, Room 603, Telephone Building, at once. Miss Reinhardt is an experienced operator and can tell you all about it. Bring one or both of your parents with you, or else please be prepared to give references.
